

Bespoke Veneering

► *Luxury residential development, Surrey*
Doors in Otr Wenge with Maple inlays,
44mm solid core doors with glazed
apertures

UK Veneering offers its customers a truly bespoke veneering service

From plain veneered panels made to order, to producing panels cut to size, solid timber lipped, then over-veneered and sanded.

Or alternatively we can veneer our customers own panels, furniture and doors - we even produce veneer layons for our customers to apply themselves.

Our main areas of production include:

- Architectural Panels
- Doors
- Kitchens
- Furniture

Our combination of traditional veneering skills, together with the application of CAD/ CAM laser technology, allows our customers to create almost any design.

We hope this brochure will give you a taste of what is possible. We pride ourselves on our expertise gained through many years of working with veneer.

It has been our privilege to work on many prestigious projects. Our skilled staff have earned us an enviable reputation in the manufacture of bespoke veneered solutions.
